

WELCOME TO THE KENNESAW STATE UNIVERSITY LIBRARY SYSTEM

Librarians are here to help you with your research needs, including:

- how to use our catalog or databases.
- how to find books, articles, journals, or multimedia materials.
- assistance with search terms, formulating a research question, and search strategies.
- general questions about the library system and Kennesaw State University.

A librarian will help you get started so that you can do research on your own.

Walk-in consultations with a librarian should last no longer than 20 minutes.

If you need more extensive help, please make an individual research appointment using the online scheduler on our website under Services – Research Help.
